

Obama vs. McCain:
WHAT THEY WOULD MEAN FOR WORKING FAMILIES

ISSUE	OBAMA	MCCAIN
<p align="center">TAX POLICIES THAT REWARD WORK</p>	<p>Obama Offers Middle-Class Tax Cuts That Are Three Times The Size Of McCain's. Obama's plan calls for reforming the tax code so that it rewards hard work. That's why the typical middle-class family will get three times more in tax cuts from the Obama plan than under the McCain plan.</p> <p>No Tax Increases For Families Making Less Than \$250,000. If you are a family making less than \$250,000, Obama's tax plan will not raise your taxes – not your income taxes, not your payroll taxes, not your capital gains taxes, not any of your taxes. In fact, you are overwhelmingly likely to get a tax cut – one that is larger than what McCain is proposing.</p>	<p>McCain Offers Tax Plan That Ignores 101 Million Middle-Class Households But Not The Oil Industry, Which Would Receive A \$4 Billion Tax Break. McCain's economic platform rests on the premise that the nation's economic challenges are minor and primarily psychological. McCain has not even proposed a short-term stimulus to help working families. His tax cuts ignore middle-class workers – about 100 million households, including 37 million seniors, would get no relief. Instead, McCain would spend nearly \$2 trillion over a decade in tax breaks for corporations, including \$4 billion a year for the oil industry. [McCain Town Hall, 1/24/08, West Palm Beach, Florida ; Obama Campaign Analysis, "Comparing the Obama and McCain Tax Plans"; Robert Gordon and James Kvaal, "Five Easy Pieces and Two Trillion Dollars," Center for American Progress Action Fund, March 2008; "The McCain Plan to Cut Oil Company Taxes by Nearly \$4 Billion," Center for American Progress Action Fund, 3/27/08]</p> <p>McCain Wants To Continue Bush Tax Cuts For The Wealthy That He Once Criticized As Too Tilted To The Wealthy. Under the McCain plan, the wealthiest 0.1% of households – those making more than \$2.8 million per year – will get a tax cut of nearly \$600,000, while the average middle-class family would see a tax cut that is only one-third the size of Obama's plan. In 2001, McCain said that he couldn't vote for the Bush tax cuts in good conscience because they were too skewed to the wealthiest Americans. <p>ENERGY POLICY THAT REDUCES DEPENDENCE ON FOREIGN OIL AND HELPS FAMILIES COPE WITH HIGH ENERGY PRICES</p>	<p>Obama Would Provide \$1,000 Immediate Energy Rebates this Fall. Under Obama’s plan, a windfall profits tax would be placed on the oil companies in order to fund emergency energy rebates of \$500 per worker and \$1,000 per family for 95% of American families. Obama will also crack down on oil market speculation and swap oil from the Strategic Petroleum Reserve to help bring down prices.</p> <p>Obama Will Invest \$150 Billion Over 10 Years And Create 5 Million New Green Jobs. Obama will invest \$150 billion over 10 years in renewable energy, energy efficiency and the next generation of clean vehicles. These investments will lower oil demand and prices in the long term, create 5 million new jobs, and improve our environment.</p> <p>Obama Will Partner With Domestic Automakers To Fast-Track The Development Of Higher Mileage Cars And Produce Advanced Vehicles. As President, Obama will invest in putting one million plug-in hybrid vehicles on the road by 2015 and provide \$4 billion in retooling tax credits and loan guarantees for domestic auto plants and parts manufacturers, so that the new fuel-efficient cars can be built in the U.S. by American workers rather than overseas. He will also provide tax credits for consumers to purchase advanced technology vehicles.</p>	<p>McCain Has Been Part Of The Problem in Washington. McCain said that our dependence on foreign oil has been “thirty years in the making, and was caused by the failure of politicians in Washington.” However, McCain has been in Washington for 26 of those 30 years and has done little to solve the problem. He has since changed his mind. [McCain speech, 7/7/08]</p> <p>McCain Offers Washington Gimmicks Instead Of Real Energy Solutions That Save You Pennies While Boosting Oil Industry Profits. McCain’s energy plan offers the same failed policies and Washington gimmicks. His plan to suspend the gas-tax would save you only pennies when you fill up the gas tank, but would actually lead to increased oil industry profits. In addition, McCain has repeatedly voted against a windfall profits tax on the oil companies. And he is now proposing a plan that would cut taxes for oil companies by \$4 billion. <p>TAKING ON THE OIL INDUSTRY</p>	<p>Obama Will Enact a Windfall Profits Tax on the Top Grossing Oil Companies to Ease the Burden on American Families And Require Oil Companies To Use Existing Drilling Leases. Obama supports imposing a tax on a portion of excess profits of oil companies to pay for an immediate emergency energy rebate of \$500 for individuals and \$1,000 for families and will employ a use-it-or-lose-it approach to require oil and gas companies to develop federal and offshore leases.</p> <p>Obama Would End Oil and Gas Industry Tax Breaks. <p>ENSURING AFFORDABLE HEALTH CARE</p>	<p>Obama Will Lower Costs By Up to \$2,500 Per Family And Improve Quality. The Obama plan will aggressively cut the costs of health care by modernizing health information technology, improving chronic care management and reimburse employers for a portion of catastrophic health care costs.</p> <p>Guarantee Health Coverage for Every American. Under Obama’s plan, Americans can keep the coverage they have or take advantage of expanded choices, like a new National Health Insurance Exchange to help people purchase a private insurance plan and a new public health insurance plan similar to the one given to federal employees and members of Congress.</p> <p>Under Obama’s Plan, If You Like Your Health Care, Nothing Changes. Obama’s plan builds on the current system, retaining the employer-based health insurance system and creating a voluntary public plan to expand coverage. It will ensure that all Americans can choose high-quality, affordable health care coverage.</p>	<p>Under McCain’s Plan, Health Insurance Benefits Would be Taxed For The First Time, Resulting In A \$3.6 Trillion Tax Increase On Working Families. McCain’s health care plan would eliminate the payroll deduction on health care benefits, which would have the effect of raising taxes on working families by \$3.6 trillion.
